

CMV Negative Blood Products

Notification Date: February 28, 2022
Effective Date: March 9, 2022

Effective March 9th, 2022 ProMedica Laboratories will no longer provide CMV negative cellular products as a special-order request. According to evidence-based practice and industry standards, all cellular products will be leukocyte reduced which is considered CMV negative equivalent or CMV safe.

Please reach out to the Transfusion Services or Infectious Disease Pathology Medical Directors as needed:

Susan Shapiro M.D. Transfusion Services

Nicole Hubbard M.D. Infectious Disease Pathology

You can also find more information in the Circular of Information for the Use of Human Blood and Blood Components. (pg. 50)
